Notes

Please find enclosed the different standard sizes of windows that we make. All windows are made based on a firm order. These measurements are basically levels that correspond to the price increments on the price list. Therefore, they provide more light for a given price.

Measurements
These dimensions are based on the window frame, and do not take into consideration the “exterior mouldings” (or EM). This list is not static regarding the number of moving or fixed sashes, which can be interchanged when the type of window allows it.

Assembly
We can also assemble frames of the same thickness (vertically or horizontally) to meet specific needs.

Validity
This list must only be used as a reference. The feasibilities confirmed by the distributor or Fenplast’s Customer Service Department take priority over this list.
